

DC1060-75W12V
DC1060-75W24V

Features

- **Wide Range Inputs (10~60VDC)**
- Microcontroller Integrated
- High Efficient Conversion
- Aluminum Housing
- 100% Made in Taiwan
- **Multiple Safety Protections:**
Input Polarity Reverse / Output Polarity Reverse / Short Circuit / Overheat / Overload
- Best fit for Forklift Applications, can also be used in: Automotive, Surveillance systems, Telecommunications.

Model	DC1060-75W12V	DC1060-75W24V
System		
Continuous Power	75W	
Max Power	100W	
Output Voltage	12V or 19V	24V
Standby Current (Normal Mode)	< 0.02A	
Input Voltage	10~60V	
ACC Start	YES	
Efficiency	> 90%	
Protection		
Input Polarity Reverse Protection	By Diode	
Output Polarity Reverse Protection	By Circuit	
Output Short Circuit Protection	YES	
Output Overheat Protection	By Circuit	
Output Overload Protection	By Circuit	
Cooling	Air Convection	
Mechanical		
Fuse	10A x 1PCS	
Dimension (L x W x H)	108 x 73 x 45 mm	
Net Weight	0.20 kg
